Tri-Community Anglers Association

In 1998 a small group of individuals gathered to form what is now a 100+ member Tri-Community Anglers Association. With the help of our members we hope to celebrate many more years to come. Since that day in 1998, Peters Creek has been transformed into a well diversified and stocked trout fishing stream for anglers' need to fish or just relax. So let us keep up the good work for the future!
